SCHEDULE A.

(See clauses 2 and 11).

EXPLANATORY NOTE.**The Different Parts of the Schedule.**

1. Part (i) includes common medical preparations which contain the same active ingredient as many preparations manufactured by the different firms under different names. The maximum prices specified in Part (i) will apply to any such preparation which is not included in Part (ii) under its proprietary name. Pharmaceutical chemicals are shown in Part (iii). Infant and Patient Foods and allied articles are shown in Part (iv).

Prices to be treated as maxima.

2. The ceiling prices are maximum prices and any controlled drug may be sold at a lower price than the ceiling price fixed for the drug.

Part (iii) Prices.

3. The prices fixed in Part (iii) are for chemicals of standard pharmacopoeial quality. They do not apply to chemicals sold for industrial purposes or to chemicals of inferior quality, the prices for which should be considerably cheaper. On the other hand these prices do not also apply to chemicals of a higher standard of purity which are intended for laboratory work or for use as analytical re-agents.

Wholesale and Retail prices to be nett.

4. Except as provided in paragraphs 8, 9 and 10 the ceiling retail prices for drugs purchased at the retailer's place of business are inclusive of all incidental charges such as cost of containers, freight and packing. The ceiling wholesale prices in Parts (i), (ii) and (iv) are inclusive of incidental charges such as cost of containers, packing and goods freight, but if the wholesaler dispatches the consignment by passenger train or by post he shall be entitled, in addition, to recover from the consignee not more than half the difference between the freight cost or postage actually incurred and the freight cost which would have been incurred if the consignment had been sent by goods train.

Wholesale prices for Assam.

5. In the case of drugs consigned for delivery to Assam retailers through the Civil Supply Agency set up by the Government of Assam in Calcutta, the wholesale price of drugs specified in Parts (i) and (ii) of the Schedule shall be fixed at 15 per cent less than the retail price notwithstanding the prices specified in column 3 of Parts (i) and (ii) of the Schedule. The wholesale price is inclusive of packing and freight to Calcutta.

Prices of original packings not specified in Parts (i), (ii) and (iv).

6. When a drug specified in Part (i), (ii) or (iv) is sold in an original manufacturer's or importer's packing which is not specified in the Schedule, the price of the unspecified packing should be calculated on the basis set out in clause 3(b) of the Order, provided that the price so fixed does not exceed the price calculated *pro rata* on the price of the next smaller packing specified.

Prices of Split quantities of drugs in Parts (i) (ii) and (iv).

7. When a drug specified in Part (i), (ii) or (iv) is sold by a retailer in loose quantities, the price for such loose quantities should be worked out *pro rata* on the price of the packing specified or where two or more packings are specified *pro rata* on the price of the next larger packing specified. If the loose quantity is supplied in a container the retailer may charge extra for the container up to the maximum laid down in para 10(a) of the Explanatory Note.

Permissible extra charges for all drugs.

8. If the retailer has to pay a local octroi, terminal tax or sales tax amounting to one per cent or more of the retail value of the drug sold, he may charge extra for such octroi, terminal tax or sales tax provided that the extra charge is separately noted in the cash memo, given to the purchaser. Similarly, if a wholesaler has paid octroi, terminal tax or sales tax amounting to one per cent or more of the retail value of the drugs sold to a retailer who does not also have to pay any such octroi or tax in respect of the same consignment, he may charge extra for such octroi or tax from the retailer and the retailer may recover the extra charge from the purchaser provided that the extra charge is separately noted in the cash memo given by the retailer.

Permissible extra charges for drugs in Parts (i), (ii) and (iv).

9. Retailers whose place of business is situated in the following hill stations where extra transport costs have to be incurred may charge a maximum of five per cent, more than the retail prices specified in Parts (i) (ii) and (iv) of the Schedule in addition to any extra charge which they are entitled to make under paragraph 8, provided that the extra charge is separately noted in the cash memo, given to the purchaser:—
